AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1931. Table 13.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Fitter cooly ...	Skip road above the 284 ft. level, Pilot Shaft.	VI	Owing to the derailment of a riding bandy he fell down the shaft for some distance.	Wound of left elbow strain right hip and wound sole of foot Fracture of interna malleolus (right).
Machine mestri (M. 9,709).	No. 29 stope below the 3,226 ft. level S., Rowse's Shaft.	XIII	Through deepening a socket containing a small quantity of explosives.	Peppered wounds of chest wall, both arms, neck, face, scalp with penetrating wound into the trachea, foreign bodies and wounds in both eyes.
Stuff cooly ...	Chute, 44th level, Rowse's Auxiliary Shaft.	XIX	While pushing an over-loaded bandy, a stone from it fell on his foot.	Lacerated wound dorsum of left foot, last toe and metatarsal bone crushed and amputated.
Road cooly ..	Sink, 50 feet below the 76th level, Edgar's Auxiliary Shaft.	XIX	Owing to the tilting of the skip while being filled, his leg was jammed between it and a dividing.	Lacerated wound of middle of left thigh. muscles cut.
Stuff cooly ...	Drive, (main haulage) 76th level S., Air Shaft.	XI	A rockburst	Wound of scalp, forehead, with fracture of frontal bone, wound of mouth with fracture of upper maxilla with loss of two upper front teeth and wound of back, left arm and left hand.
Blaster, (M. 10,233 -- B. 7,106).	No. 51 stope below 47th level (Intermediate) S., Rowse's Shaft.	XV	While drilling, a piece of rock fell on his knee.	Six days old wound of left knee, joint opened. Died in hospital at 9-20 A.M., on 2nd July.
Hammerman ...	Blacksmith's shop (surface).	XXIII	While at work in the Blacksmith's shop, a chip of steel from a hammer struck his eye.	Penetrating wound of right upper eyelid and wound of eye ball.
Road cooly ...	Skip road below 48th level, Rowse's Auxiliary Shaft.	XVIII	While filling the skip it was suddenly hoisted and he was caught between it and the shaft timbers.	Contused abrasion of right hip and buttock. Fracture of pelvis, wound of thigh and penis.
Machine mestri, (M. 11,355).	No. 25 stope below the 54th level (intermediate) N., Air Shaft.	XI	A rockburst	Wounds of scalp, face and all over the body. Extensive lacerated wound of lower 3rd of left forearm, muscles injured and ulna fractured. Died in hospital at 3-40 A.M. on 24th February.

AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1931—*Continued.* **Table 13**—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Timber cooly ...	Drive, 53rd level N., Ribblesdale's No. 1 Incline Shaft.	XIX	While fixing a tunnel set, a piece of rock fell on him from above.	Wound lower 3rd of left forearm, extensor tendon cut.
Handjumper cooly	No. 8 stope below the 48th level S., McTaggart's Main Winze.	XI	A burst of rock	Wound of scalp, bone chipped and wound of left knee, joint opened.
Jackhammer cooly.	Sink, 30 feet below the 73rd level, Edgar's Sub-Vertical Shaft.	XIX	Owing to fouling of the hoisting rope with a lining rope, a portion of the latter broke and fell into the sink.	Contusion of back, injury to spine, contused wound of back, left elbow and forearm, contusion of right calf.
Handjumper cooly	Drive, 47th level N., (Intermediate), McTaggart's North Winze.	XI	A rockburst	Compound fracture both bones of right leg, fibula comminuted, internal malleolus burst through skin and wound dorsum of right foot.
Vacuum pump motor driver.	Water pump, Slimes Plant, (surface).	XX	His hand was caught between the belt and the revolving shafting.	Compound comminuted fracture of middle 3rd of right forearm, left thumb crushed and amputated.
Mill Oiler ...	Stamp Mill (surface)	XX	His hand was caught between the tappet and the cam.	Punctured wound of left elbow (inside), joint opened.
Blaster (M. 9,810—B. 6,892).	No. 36 stope below the 34th level N., McTaggart's Auxiliary Shaft.	XIX	While barring down loose, a piece of rock fell on his thigh.	Lacerated wound of middle of left thigh, muscles cut.
Unloading cooly	Main haulage, 51st level, Edgar's Shaft.	XVII	A wheel of a bandy passed over his foot	Extensive lacerated wound of sole of right foot.
Stuff cooly ...	Drive, 76th level S., Rowse's No. 2 Auxiliary Shaft.	XI	A burst of rock ...	Lacerated wound of right leg with simple fracture both bones middle of right leg.
Timber cooly ..	Drive, 46th level S., McTaggart's Main Winze.	XI	A burst of rock ...	Wound of lower 3rd of left leg, tendo-achilles cut and wound over left scapula.
Handjumper mestri (M. 10,350—B. 8,132).	No. 57 stope below 2,120 ft. level N., Tennant's Shaft.	XI	A very heavy rockburst ...	Portion of dismembered body recovered on the 13th and 14th June at 2 P.M.

AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1931.—*Continued* Table 13—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Stuff cooly ...	Chute, 46th level S., Rowses' Auxiliary Shaft.	XIX	While pulling a casuarina pole stuck up in the chute, his arm was caught between it and a chute timber.	Simple fracture of both bones lower 3rd of right forearm.
Stuff cooly ...	Crosscut W., to Edgar's Sub-Vertical Shaft, 51st level.	Do	While clearing stuff, a piece of rock fell on his knee.	Punctured wound of left knee. Septic.
Surface gang cooly	Cement store Room, Edgar's Shaft yard (surface).	XXIII	While removing cement bags from a pile, a bag rolled on his arm.	Simple fracture of middle of left humerus.
Handjumper cooly	No. 65 stope below the 46th level S., McTaggart's Main Winze.	XV	While clearing stuff, a piece of rock fell on his leg.	Extensive lacerated wound of lower third of left leg, tendo-achilles cut and oscalcis chipped.
Machine cooly ...	Rise B. 28th level N., Tennant's Shaft.	XIX	While drilling, some fines fell into his eye.	Corneal ulcer of right eye due to an old wound (with half vision)--(left eye blind for 10 years due to small pox.)
Handjumper mestri (M. 12,482—B. 8346).	On the road between McTaggart's Vertical Shaft and the Kolar Gold Field Hospital.	XXII	He fell off a lorry in motion ...	Fracture of base of skull with contusion of scalp. Died in hospital at 7-45 P.M. the same day.
Cooly ...	Blackrock dump, Edgar's Shaft (surface).	Do	Run over by a moving truck ...	Lacerated wound of upper 3rd of right thigh. muscles injured with compound fracture of right femur and simple fracture of middle of left thigh. Died in hospital at 7 P.M. on 20th July.
Stuff cooly ...	Sink, No. 1 Winze, 59th level N., Air Shaft.	XV	While hoisting stuff, a piece of rock fell on his knee.	Wound of right knee, joint opened.
Unloading mestri, (M. 1,735).	Crosscut W., in Drive N., 3,226 ft. level, Kibblesdale's section.	XI	A series of very heavy rockbursts ...	Fracture of skull and wounds all over body.
Unloading cooly...	Do ...	Do	Do ...	Deep wound of left temple and severe wounds all over body.
Do ...	Do ...	Do	Do ...	Abrasions all over body.
Timber cooly ...	Plat, 44th level, McTaggart's Vertical Shaft.	VIII	While attempting to cross the shaft, he slipped and fell 75 feet.	Fracture of skull.
Stuff cooly ...	Drive, 37th level N., Edgar's Shaft.	XIX	While clearing stuff in the level, a piece of rock fell on his leg.	Right great toe and 1st metatarsal crushed and neglected ulcer of left 2nd toe.

Handjumper cooly	No. 11 stope below the 39th level N., Rowse's Shaft.	XV	While cleaning stuff, a piece of rock fell on his foot from above.	Wound dorsum of left foot, muscles and tendons cut with fracture of 4th metatarsal bone.
Machine mestri, (M. 6,954—B. 4,886).	Rise "B", 48th level S., Rowse's Auxiliary Shaft.	XV	While climbing up by ladder, a piece of rock fell on his arm.	Wound above left wrist, muscles, tendons, arteries and nerves cut.
Handjumper mestri, (M. 10,008—B. 6,989).	Drive, 51st level S., of No. 1 Incline Shaft.	XVII	A wheel of a bandy ran over his foot.	Lacerated wounds of right great and 2nd toes, joints opened and wound of sole of foot.
Unloading cooly...	48th level plat, Ribblesdale's Auxiliary Main Winze.	XI	A heavy rockburst	Body recovered at 5 o'clock on 5th December.
Unloading head mestri, (M. 13,070).	Do ...	Do	Do	Body recovered at 3-15 P.M. on 24th December.
Unloading cooly...	Do ...	Do	Do	Body recovered at 4-10 P.M. on 25th December.
Unloading mestri, (M. 19636).	Do ...	Do	Do	Contused swelling and abrasions both legs.
Blackrock cooly...	Drive, 37th level S., Rowse's Shaft.	XIX	While breaking a big piece of rock a chip flew into his eye.	Penetrating wound of right eye with prolapse of iris.
Cotterman ...	Drive N., (foot wall) 45th level S., Ribblesdale's Auxiliary Main Winze.	XIX	Owing to the collapse of the bar, he fell on the rock drill and the jumpers close by.	Contused wound of right side of chest-wall with fracture of right 6th, 7th and 8th ribs.
Stuff cooly ...	Drive N., from cross-cut E., 76th level main haulage, Auxiliary Shaft.	XIX	While clearing stuff in the drive, a piece of rock fell on his leg.	Lacerated wound of right ankle, joint opened and bones chipped; abrasion of left leg.
Handjumper cooly.	Stope below the 44th level S., Ribblesdale's South Section.	XV	While climbing up by ladder, he slipped or lost his hold and fell into the stope.	Wound of left eye-brow, bleeding from ear and fracture base of skull. Died in hospital at 4-20 A.M. on 7th January 1932.
Concreting cooly.	Plat, 51st level, No. 1 Incline Shaft.	XIX	While removing a granite stone from a pile, another rolled down on his foot.	Contused swelling of dorsum of right foot, fractures of right 1st, 2nd, 3rd and 4th metatarsals.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Stuff cooly ...	600 ft. level plat, Pilot Shaft.	XIX	While refilling a lamp with carbide there was a blaze which burnt his face.	Burns of face and eyes.
Tea boy ...	Ladderway in stope above the 61st level N., Carmichael's Secondary Shaft.	XV	While climbing up by ladder, he slipped and fell about 12 feet.	Fracture of base of skull. Died in hospital at 12-40 P.M. the same day.
Concreting cooly.	No. 3 Winze below the 72nd level S., Glen's Section.	XV	He fell down the winze—a distance of 102 feet.	Wounds all over the body. Died on the way to hospital.
Machine cooly ...	No. 2 Winze below the 72nd level S., Glen's Section.	XV	While opening an air-valve in the Winze, he lost his balance and fell 100 feet.	Wounds all over the body.
Machine cooly ...	Rill stope above the 69th level N., Carmichael's Secondary Shaft.	III	While drilling, some quartz fell on his arm and leg from the working face.	Wound of right knee, tendon of quadricep semuries cut and wound middle of left forearm.
Stuff cooly ...	Plat, 73rd level, North Development Winze.	XVII	The wheel of a bandy ran over his hand.	Lacerated wound with compound fracture of proximal phalanges of middle, ring and little fingers of right hand, lacerated wound of right index finger.
Stuff cooly ..	Drive, 73rd level N., No. 1 Winze, Glen's Section.	XVII	While pushing a trolley he slipped and fell against the rail.	Fracture at the junction of middle and lower 3rd of left ulna.
Machine cooly ...	Rill stope above the 61st level N., Carmichael's Secondary Shaft.	XIX	While barring down loose, a piece of rock fell on his leg.	Simple fracture of both bones of middle of right leg and contusion of left ankle.
Stuff cooly ...	Drive, 68th level S., Carmichael's Secondary Shaft	XVII	Whilst tipping a bandy of sand, his hand was caught between the bandy and the foot wall.	Colles' fracture of left wrist.
Machine cooly ...	Rill stope above the 69th level N., Carmichael's Secondary Shaft.	XIX	While drilling, a piece of quartz fell on his knee.	Septic infection of left kneejoint due to three days old injury.
Pipe mestri, (M. 6,253).	Drive, 59th level S., Glen's Secondary Shaft.	XIX	While cutting a trench in the level for the water pipe, an air pipe from the back fell on him.	Fracture of right internal malleolus.
Machine cooly ...	Drive, 72nd level N., Glen's Section.	XV	While at work in the bottom of the winze an empty bucket fell on his head.	Head crushed.
Do ...	Rill stope above the 67th level S., Carmichael's Secondary Shaft.	XV	While drilling, a piece of quartz fell on his ankle.	Wound of left inner ankle.
Do ..	Stope below the 13th level S., Tennant's Shaft.	XIX	While hoisting a bucket of quartz, his thumb was caught between the bucket and the ladder.	Compound fracture of left thumb.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Machine cooly ...	Drive, 59th level N., Carmichael's Secondary Shaft.	XIV	Due to the explosion of a small quantity of blasting gelatine.	Penetrating wound of left eye, iris prolapsed with haemorrhage into the anterior chamber and peppered wounds of face, chest, both arms, right leg and foot.
Cleaner ...	Crosscut E., 40th level, Heathcote Shaft.	XIX	His leg was caught between the engine chamber door and its frame.	Extensive lacerated wound right heel and contused wound of ankle.
Machine cooly ...	Crosscut E., 74th level, Heathcote Shaft.	XIV	Due to the explosion of an unexploded charge of blasting gelatine.	Peppered wound of scalp and face, foreign body in both eyes, penetrating wound of right eye with prolapse of iris. Peppered wound of chest, right shoulder, both forearms and hands, right knee and both feet.
Do ...	Do ...	Do	Do	Peppered wounds of scalp, foreign body in both eyes with penetrating wounds. Peppered wounds of chest-wall, both arms and hands, right thumb and index finger smashed, index finger amputated and wounds of both legs and feet.
Concreting mestri, (M. 9,106).	Drive, 72nd level S. of No. 2 Winze, Glen's Section.	XIX	While drilling, a piece of rock fell on his knee.	Wound of left knee, joint opened.
Machine cooly ...	No. 1 Winze, 73rd level S., Glen's Section.	XV	While connecting a hose to an air pipe, he overbalanced and fell a distance of 10 feet.	Fracture of astragalus and fracture of internal malleolus of right foot.
Machine cooly ...	Crosscut E., 74th level, Heathcote Shaft.	XIX	While drilling, a piece of rock fell on his leg.	Wound of lower third of right leg, tendo-achilles completely cut.
Machine cooly ...	Crosscut W., 74th level, Heathcote Shaft.	XIX	While clearing stuff, a piece of rock fell on his leg.	Wounds of lower third of right leg, knee and tendo-achilles cut.
Timber cooly ...	Stope below the 62nd level N., Carmichael's Secondary Shaft.	I	Fall of hanging wall	Left leg crushed. Amputated at the lower 3rd of thigh.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Natue of Injury
Stuff cooly ...	Rill stope above the 67th level N., Carmichael's Secondary Shaft.	XIX	While clearing stuff, a lump of concrete fell on his back.	Contused swelling of lower 3rd of back with fracture of spine and wound of upper part of back.
Machine mestri... (M. 13,135—B. 8,688).	No. 5 Winze, 70th level S., Glen's Secondary Shaft.	XI	A rockburst	Wounds with compound fracture of both bones of lower 3rd of left leg, wounds dorsum of left foot, right knee, leg and contused wound dorsum of right foot.
Machine cooly ...	Do ...	Do	Do ...	Wound of left knee joint opened, wounds of chest-wall, left elbow, right knee, right groin and middle of left leg.
Machine mestri (M. 4,163—B. 2,085.)	Do ...	Do	Do	Wound of scalp, right forearm, middle of left thigh and fracture internal malleolus right.
Machine cooly ...	Ladderway above the 74th level plat, North Development Winze.	VIII	While fixing a 2" pipe to the air main, he overbalanced and fell into the sink 24 feet below.	Contused swelling of right hip and buttock, fracture of horizontal ramus and depending ramus of right pelvic bone.
Cageman ...	Plat, 64th level, Heathcote Shaft.	XVII	While pulling a bandy from the front, a wheel passed over his foot.	Right great and tip of 2nd toe crushed and amputated and wound of tip of 3rd toe.
Timber mestri, (M. 13,362.)	Drive, 23rd level S., Tennant's Vertical Shaft.	XIX	While tightening a timber, it swerved causing him to overbalance and he fell 7 feet.	Fracture of 6th, 7th and 8th ribs right side wounds forehead and angle of left eye, wound middle 3rd right forearm and lower 3rd of left arm.
Jumper cooly ...	Ladderway in No. 2 Winze below the 71st level S., Glen's Section.	XV	While releasing a hitched up bucket in the winze, he overbalanced and fell 20 feet.	Lacerated wound of scalp, right index finger, wounds of lower 3rd of right leg, dorsum of foot, left shin, left inner ankle and abrasions of right buttock.
Stuff cooly ...	Drive, 64th level S., Carmichael's Secondary Shaft.	XIX	While pushing a bandy, he tripped against a sleeper and fell on the tramline.	Contused swelling of left shoulder, fracture of clavicle in two places.

Do ...	Do ...	Do	Do ...	Punctured wound of left thigh and knee joint opened.
Timber cooly ...	Drive, 68th level S., Bullen's Incline Shaft.	Do	Do ...	Lacerated wound of right knee, joint opened.
Granite wall cooly	Drive, 67th level S., Bullen's Incline Shaft.	Do	Do ..	Left thigh crushed and amputated, wound of left forearm and right hand.
imber cooly ...	Drive, 68th level N., Auxiliary Shaft.	Do	Do ...	Contusion right side of forehead, deep wound of scalp, wounds of right shoulder back, fore arm, both knees and legs.
Assistant Foreman (M. 1,392—B. 4,253.)	Drive, 63rd level N., Oakley's No. 2 Vertical Shaft.	Do	Do ...	Fracture of pelvis, small wounds of left hand, left foot and right leg.
Handjumper cooly	Stope below the 68th level N., Bullen's Incline Shaft.	XV	While taking down loose a piece of rock fell on his leg.	Three days old wound lower 3rd of right leg, tendo-achilles slightly cut.
Handjumper cooly.	Stope below the 58th level N., Oakley's No. 2 Vertical Shaft.	XIII	Through drilling into a socket containing remnant of a charge of blasting gelatine.	Peppered wounds of face, both hands, chest and legs. Foreign bodies in both eyes, right eye burst.
Timber cooly ...	Drive, 53rd level N., Bullen's Incline Shaft.	XV	Owing to the cutting of the life line by a fall of rock, he fell into a stope 30 feet below.	Fracture of base of skull and multiple injuries all over the body.
Blaster. (M. 11915—B. 8094).	Drive, 69th level N, Bullen's Incline Shaft.	XI	A very heavy rockburst ...	Multiple injuries to head and body. Recovered at 7-30 A.M. on 17th March.
Assistant blaster	Do ...	Do	Do	Multiple injuries to head and body. Recovered at 6 A.M. on 17th March.
Stuff mestri, (M. 13,132).	Drive, 54th level S., Bullen's Incline Shaft.	XI	A rockburst	Wound lower third of both legs, left tendo-achilles completely cut and right tendo-achilles injured.

OF MYSORE DURING THE YEAR 1931.—*Continued* Table 13—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Handjumper cooly	Stope above the 70th level S., Bullen's Incline Shaft.	XI	A rockburst	Extensive lacerated wound of lower 3rd of left arm, muscles cut, wound of left side of neck with compound fracture of clavicle, wounds of scalp and small wounds all over the body.
Cleaner ...	Near No. 1 Cyanide Works (surface)	XXIII	While getting down a flight of steps he slipped and fell.	One day old green-stick fracture of left ulna.
Machine mestri, (M. 13,021—B. 8,641).	73rd level S., Auxiliary Shaft.	XV	While opening the door of the bucket-road, he slipped and fell down the winze about 150 feet.	Fracture of skull and multiple injuries all over the body.
Handjumper mestri, (M. 12,618—B. 8,415).	No. 18 stope above the 55th level S., Oakley's No. 2 Vertical Shaft.	XIX	While barring down loose, a piece of rock fell on his foot.	Four days old wound of dorsum of left foot with cellulitis of foot.
Handjumper cooly	Stope below the 69th level S., Bullen's Incline Shaft.	XI	A burst of rock	Wound of lower third of left leg, tendo-achilles completely cut and wound of dorsum of left hand.
Handjumper Foreman, (M. 6854—B. 4806).	No. 18 stope above the 55th level S., Oakleys' No. 2 Vertical Shaft.	XV	While working on a stage, he over-balanced and fell down.	Penetrating wound of right side of abdominal wall leading to the liver, lacerated wound of both knees, left inner ankle and nose and wound of both lips and elbow. Died in hospital at 12 midnight on 22nd November, "Septicæmia" having supervened.
Stuff cooly ...	Drive, 64th level N., Oakley's No. 2 Vertical Shaft.	XI	A burst of rock	Compound fracture of right great and 2nd toes, wound of scalp, middle of left fore-arm and left knee.
Machine cooly ...	No. 31 stope below the 66th level S., Taylor's Section.	XV	While cleaning stuff, a piece of rock fell on him from above.	Lacerated wound lower 3rd of left leg, tendo-achilles partly cut.
Barring cooly ...	Bottom of 1st Section of Dump Haulage Line (surface).	XXII	While walking along the tramline, he was knocked down and run over by a moving bandy.	Extensive lacerated wound whole of right leg, muscles injured.
Handjumper cooly	No. 9 stope below the 57th level, N., Oakley's No. 2 Vertical Shaft.	XIX	While drilling, a sharp piece of steel from the jumper struck his arm.	Three day's old wound of left arm, with cellulitis of arm.

Table 13—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Timber cooly ...	Drive, 56th level N., Oakley's No. 2 Vertical Shaft.	XIX	While ladders were being taken out of a stope above, a piece of rock rolled down and struck his leg.	Wound of lower 3rd of right leg with compound fracture of fibula.
Blaster, (M. 11,032—B. 7,494).	No. 16 stope below the 62nd level S., Oakley's No. 2 Vertical Shaft.	XIX	While charging a hole, a piece of rock fell on his leg.	Wounds of lower 3rd of right leg, tendo-achilles cut.
Timber cooly ...	Drive, 67th level N., Bullen's Incline Shaft.	XIX	While carrying casuarina poles in the drive, he tripped against a sleeper and fell.	Simple fracture of right clavicle.
Staff mestri, (M. 6,225—B. 4,302)	Chute, 1,700 ft. level S., Richards' Shaft.	XIX	While filling a bandy at a flat chute, he slipped and fell astride a plank.	Rupture of urethra.
Pebble cooly ...	Quartz Yard, New Picking Floor (surface).	XXIII	While carrying a basket of pebbles, one of them fell on his shoulder.	Fracture of left clavicle
Cotterman ...	Drive, 53rd level N., No. 3 Winze, Oriental Section.	XIX	While tightening the machine bar, a stone from the back fell on his foot.	Contused wound of front of left ankle and old wound instep of foot.
Black-smith ...	Blacksmith's shop (surface).	XXIII	While cutting a red hot iron, a spark flew into his eye.	Corneal ulcer with opacity and pterygium of left eye.
Machine mestri, (M. 11,219—B. 7,619).	Sink, 110 feet below the 48th level No. 1 winze N., Taylor's Main Winze.	XV	A casuarina pole from a derailed trolley fell down the winze and struck him on the shoulder.	Contused abrasion of right shoulder and back and fracture of right clavicle.
Handjumper cooly	Stope below the 23rd level S., Richards' Incline Shaft.	XV	While climbing down by ladder, a piece of rock fell on his hand.	Lacerated wounds of right last 4 fingers, wound dorsum of hand with fracture of 1st phalanges of 3rd and 4th fingers.
Timber cooly ...	Drive, 49th level (Intermediate) N., Oriental Section.	XIX	While unloading granite stones from a trolley, one of them fell on his foot.	Right 2nd, 3rd and 4th toes crushed and amputated.
Handjumper cooly	Stope below the 43rd level N., Taylor's Shaft	XV	While cleaning stuff at the point of the stope, a piece of rock falling from above struck his leg.	Wound of lower 3rd of left leg, tendo-achilles completely cut.
Joburg Machine-man.	Drive, 51st level S., Taylor's Section.	XV	While working on a stage a portion of it collapsed and threw him into the level below.	Fractures of left 3rd, 4th, 5th and 6th ribs and wounds of left hand and elbow.

AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1931.—*Concluded* **Table 13**—*Concluded.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Natue of Injury
Bellman (M. 12,928).	Plat, 53rd level, Deep Level Main Winze.	VIII	While getting out of the bucket, he lost his hold and fell into the sink—a distance of 70 feet.	Simple fracture of middle 3rd of left thigh. Fracture of the anatomical neck of humerus, both elbows and right forearm and abrasion both legs. Died in hospital at 3-20 A.M. on 22nd October.
Machine mestri, (M. 4,875).	Sink, 70 feet below the 53rd level, Deep Level Main Winze.	XI	A rockburst	Contused swelling of right foot, abrasion of back and spondylitis lumbar region spine.
Handjumper cooly	No. 1 stope below the 44th level S., No. 2 Winze.	XI	A rockburst	Lacerated wounds of right side of back and arm, muscles injured and multiple wounds all over body.
Timber cooly ..	No. 3 stope below the 47th level S., Tennant's Section.	XV	While building a packwall, a plank of a covering above fell on his foot.	Right foot crushed and amputated.
Handjumper cooly	No. 4 stope below the 46th level S., Tennant's Section.	XI	A burst of quartz	Wound over right tendo achilles, tendon partly cut.
Do ..	No. 4 stope below the 46th level S., Tennant's Section.	XIII	Through drilling into a socket containing remnant of a charge of blasting gelatine.	Extensive lacerated wound of left palm, last two fingers blown off, fracture of carpal bones, wounds of both legs and punctured wounds of right hip and wounds of forehead and chin. Died of shock and septicaemia from multiple injuries at 3-40 P.M. on 18th December.
Do ...	Do ..	Do	Do	Wound of forehead, lacerated and peppered wounds of both arms, forearms, chest and abdominal wall; left middle and ring fingers smashed.
